CONTRACT USERS WHO ARE CONTEMPLATING FIRST-TIME PURCHASES OF UNIX SERVERS SHOULD REVIEW AND COMPARE THE FOLLOWING PRICE AGREEMENTS BEFORE FINALIZING A SERVER PURCHASE:

PA434 SUN MICROSYSTEMS  
PA437 HEWLETT PACKARD  
PA926 COMPAQ COMPUTER CORPORATION (DIGITAL)  
PA930 SILICON GRAPHICS INC.

This contract covers only those items listed in the price schedule. It is the responsibility of the agency to ensure that other items purchased are invoiced separately. State agencies will place orders directly with the vendor (creating a PG in Finet) and make payments for the same on a PV referencing the original PG. Agencies will return to the vendor any invoice which reflects incorrect pricing.

**NOTICE TO USER ENTITIES**

Users of this contract should be aware that IBM Corporation has taken exception to the State's Warranty Clause including Year 2000 compatibility. Users of this contract accept full responsibility and liability for all warranty and Year 2000 compatibility problems. By using this contract, user entities indemnify the Division of Purchasing against all claims, losses, and liabilities as a direct or indirect result of warranty and/or Year 2000 deficiencies.

Questions regarding the State's warranty (including Year 2000) clause and potential risks should be directed to Joe Hall at (801) 538-3131.

**IBM YEAR 2000 WARRANTY**

IBM abides by the warranty terms and conditions in the IBM Customer Agreement (ICA). For Year 2000 readiness compliance, when IBM represents in an IBM Product's written specification that it is "Year 2000 Ready", it means that the IBM Product, when used in accordance with its associated documentation, is capable of correctly processing, providing and/or receiving date data within and between the twentieth and twenty-first centuries, providing that all other products (for example, hardware, software, and firmware) used with the IBM Product properly exchange accurate date data with it. IBM represents as an additional specification for each applicable IBM Product that all IBM Products provided by IBM to the State of Utah under this Agreement are Year 2000 ready as defined above. This additional specification is provided subject to all other terms of the IBM Customer Agreement, between IBM and the State of Utah, applicable to a specific IBM Product's written specification and warranties.
